CONGRESSIONAL RECORD - HOUSE

Naval radio station, Sugar Grove, W. Va.

The Senate restored \$3,480,000 requested by the Navy to permit the transfer of Mavy radio receiving facilities from Cheitenham, Md. to Sugar Grove, W. Va. The Senste conferees pointed out that due to continu-ally rising high noise levels at the existing installation, the receiving facilities at Cheltenham must be moved to another location. Since the Sugar Grove site is ideally suited for this purpose, advantage can be taken of the existing investment of the Navy at this present location. The House receded from its position and accepted the Senate amend-

Classified naval installations

The Senate authorized four construction projects for naval installations at Puerto Rico in the amount of \$8,437,000. These items had previously been deleted by the House. The House conferes insisted that these projects could be properly deferred until the fiscal year 1965 program. The Senate conferees receded from their position and accepted the House deletion.

The Senate deleted two projects for Rota, Spain, and a communication facility at another location in the total amount of \$10,-351,000. These items had previously been approved by the House. The Senate conferees pointed out that these projects could safely be deferred until the fiscal year 1965 program. The House conferees receded from their position and accepted the Senate deletions.

As a consequence of the foregoing changes, the authorization to the Secretary of the Navy for the development of classified naval installations was reduced from \$71,532,000 to a new figure of \$63,095,000.

Randolph Air Force Base, San Antonio, Tex. The Senate authorized \$3,044,000 for construction and related improvements at this location. The House had previously authorized only \$1,475,000. The major difference in the House and Senate action was the refusal of the House to provide \$2,087,000 required for alterations to the headquarters building at Randolph to house all Air Force personnel management facilities at that location.

The Senate conferees were of the opinion that the increased management efficiency and economies that would result from the centralization of personnel management facilities at Randolph would more than justify the construction cost involved in this relocation. The House conferes, therefore, receded from their position and accepted the Senate amendment.

Laredo Air Force Base, Laredo, Tex.

The House had provided authorization in the amount of \$3,134,000 to be accomplished at an air training command facility to be selected by the Department of Defense. House Committee on Armed Services in testimony provided it by witnesses of the Department of the Air Force was of the opinion that this construction would be effected at Laredo Air Force Base. This opinion was subsequently confirmed by correspondence received from the Department. Subsequently, the Senate in acting on this authorization request, deleted the item in its entirety.

The House conferees pointed out that a serious deficit in the number of pilots in the Air Force will exist throughout the foreseeable future unless the production of new pilots is increased. The House conferees also pointed out that Laredo Air Force Base is ideally suited for this purpose. However, construction is required to insure appropriate training facilities for the pilot training which should occur at this base.

The Senate conferees were of the opinion that this entire project could be deferred another year. After considerable discussion, the conferees agreed to provide the first increment of construction authorization for

Laredo Air Porce Base amounting to \$275,000. This authorisation would permit the similar tion of a lighting deficiency on the runway approach to the base.

The remaining line items for Laredo Air.

Porce Base which were deferred should be resultmitted by the Department for reconsideration by the House in connection with the Department's fiscal year 1965 construc-tion authorization request. Thus, this them will be given new consideration in the m 90 days.

Bolling Air Porce Base, Washington, D.O.

As in the case of Fort Myer, Va., the Senate believed that some provision must be made to provide adequate quarters for bachelor military personnel in the Washington area and, therefore, restored \$4.million of the amount requested for troup housing at Bolling Air Force Base. The original request made by the Department and deleted by the House amounted to \$6.0 million. The House receded from its posttion and accepted the Senate amendment.

SUMMARY OF THE BILL Differences in dollar authorization

As the bill passed the House, the total authorities granted amounted to \$1,636,

The corresponding authority granted in the Senate version of the bill totaled \$1,685,861,380, or \$49,033,380 more than the House version.

The total agreed to by the conferees is \$5,425,000 more than the House version and \$43,608,000 less than the Senate version.
